

COP27 Abandons Congo Rainforest

Largest carbon
Tropical intact rainforest
Matchless storehouse,
Besting
Amazon rain temples,
8.1 billion peat
Irrecoverable sink tons,
Inhaling Congo unprotected.

Shameful
Terrifying
Horrible
Unhuman,
Bean counters!

COP27 draft
No mention
Protecting
Earth's complex system
Waterlogged rainforests.

Reckless abandon
Logging native forests
Eight more lucrative
Mother Earth blood-money
Looting / banking years!

Repair NOW,
Cost \$460 billion
Meeting COP26
Glasgow pledges,
Spent meagre
\$2.67 billion.

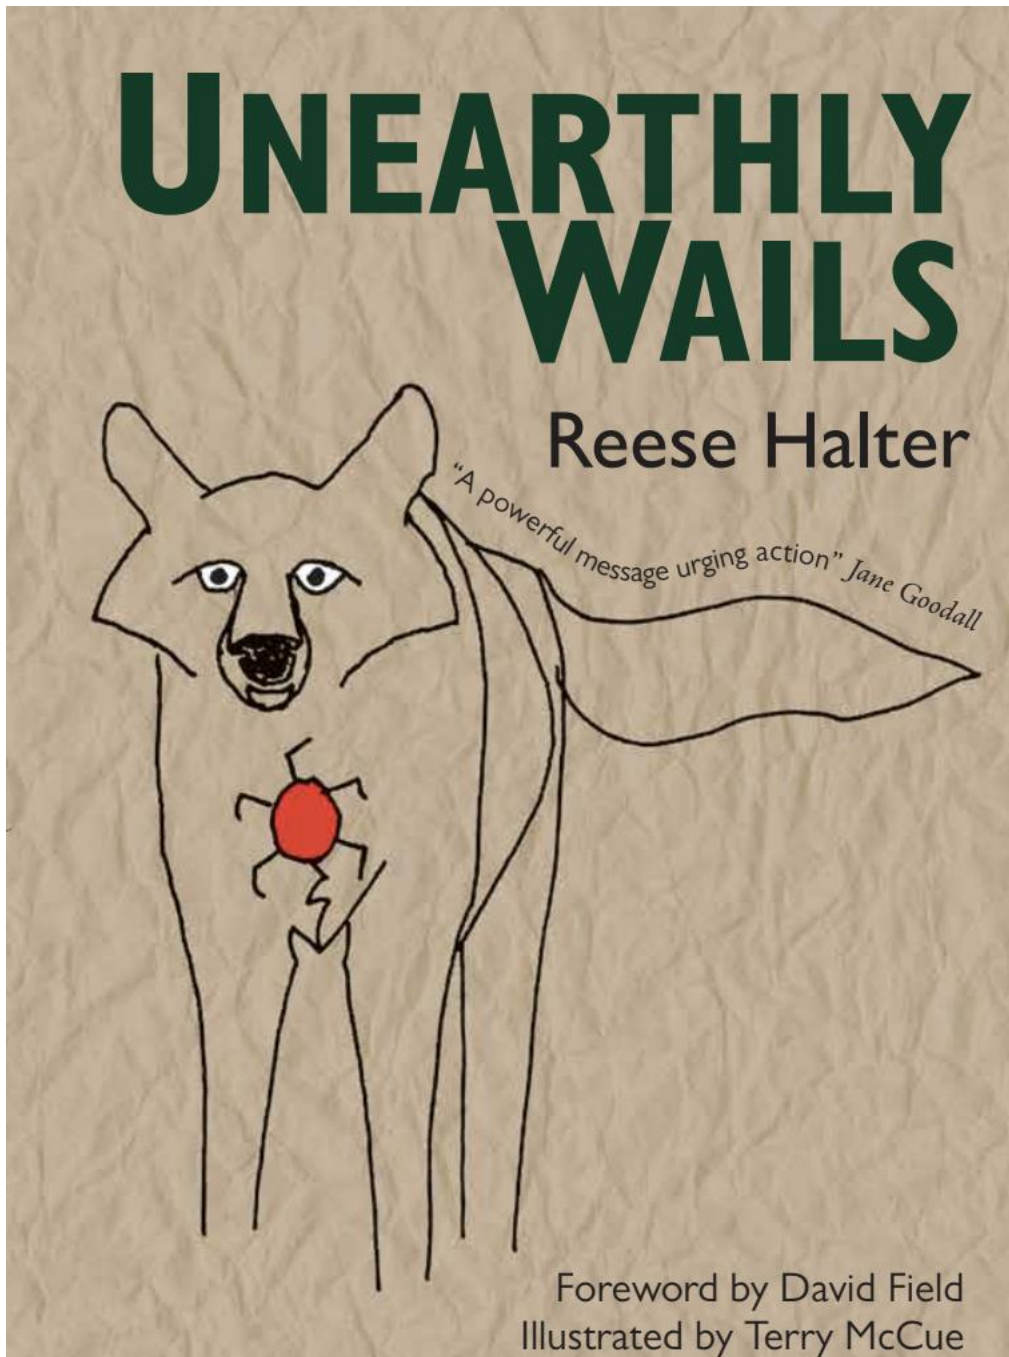

Utter absence
Political leadership
"Watch the birdie!"
Conquer Mars,
Malarkey!

Sailing to 5C
Hothouse Earth
Unliveable no ice,
Climate Gen
Rebel,
Defend
Climate solvers
Native forests / animals,
Noble
Righteous,
War!
