

Greenland's Finest

Irremissible:
Global heating,
Hungry,
Displaced,
Acidic,
Deoxygenated,
Blaring,
Plastic,
Seas.

Mid-March,
Twenty twenty-two,
Newlyn Harbour UK,
Greenland's finest,
Arctic floor keeper,
Stranded,
Discoloured,
Congested,
One hundred,
Years young.

Oceans toxic,
Beyond!
Greenland female shark,
Swollen cloudy brain,
Bacterial fluid,
Postmortem,
Amoebic meningitis.
Unseen in sharks!

Deepest seas,
Poison laced,
Twelve thousand,
New chemicals,
Daily registered.

Uninhabitable.
Disgraceful.
Obscene corporations,
Polluting,
Scott-free.
Bloody Hell!
